

HUNAR CREATION

COMPANY PROFILE

INFRASTRUCTURE

OUR PREMISES

Hunar Features a state of the art production facility which covers an area of 25000 sqm. The entire building is air-conditioned, hygienic and adheres to international standards, ensuring maximum productivity and safety to our employees. A 9000 sqm flat production floor and a 700 sqm finished good warehouse ensure that all our production and staff requirements are well taken care of.

MACHINE WORK

Almost all the 800 sewing machines in operations are from the most reputed and reliable machines in the apparel industry and are all equipped with protective guards in order to ensure the operator's safety. We have a complete range of fully automated machine, such as pocket setter, welt pocket, rocket hem, loop and velcro attachment while all the single and double needles are with auto trimmers. This ultra-modern machines pack helps to provide the fastest output while respecting the quality standards.

WHY HUNAR CREATION ?

Hunar creation is young enterprisesthat manufactures good quality garments for export and domestic sector.

We have in-house capacity for Woven Products.

Hunar creation is known for its fashionable & trendy offerings with very low pricing while it is an epitome of the rapidly growing fast fashion industry.

Keeping in tune with sustainability.We have ergonomically – designed buildings,environment, animal and work–friendly. this new age architecture utilizes air, water, sunlight in the most efficient and economical way.

We have compliance by Sedex and that's how we have championed a work environment that is aligned with a green natural environment.
