HUNAR

CREATION

INFRASTRUCTURE

Hunar Creation is a state-of-the-art manufacturing facility spread across 25,000 sq. ft. in Jaipur, Rajasthan, India.

The entire building is aesthetically designed and well-ventilated to ensure smooth operations and a comfortable work environment.

WHY HUNAR CREATION?

QUALITY PRODUCTION

In-house manufacturing with strict quality control at every stage to ensure consistent and premium products.

TRENDY & AFFORDABLE

Our designs are trendy, fashionable & created keeping global market trends and customer needs in mind.

SUSTAINABLE APPROACH

We are committed to responsible manufacturing with sustainable practices and ethical sourcing.

SEDEX COMPLIANT

We are SEDEX approved and follow ethical business practices with a focus on people, environment and integrity.

ACCOUNTS & LOGISTICS DEPARTMENT

TRANSPORTATION

Reliable global and domestic logistics partners ensuring highly secure, strictly monitored, and guaranteed on-time deliveries.

STORAGE & WAREHOUSING

Secure, moisture-controlled, and immaculately organized warehouse space utilizing modern inventory management techniques.

MATERIAL HANDLING

Optimized internal transport, precise staging, and efficient handling of delicate fabrics and valuable finished apparel products.

ECO-COMPLIANT QUALITY CONTROL LAB

SUSTAINABLE QUALITY ASSURANCE

Our state-of-the-art testing facility is strictly engineered for eco-friendly chemical testing, dye-fastness validation, and fabric strength durability analysis, ensuring absolutely zero harmful environmental run-off and maintaining compliance with global export standards.

SAMPLING & MATERIAL DEVELOPMENT

TRANSFORMING IDEAS INTO PERFECTLY CRAFTED SAMPLES THROUGH PRECISION, QUALITY & INNOVATION

SAMPLING PROCESS

FABRIC SELECTION

CUTTING

STITCHING

FINISHING

A meticulous 4-step process ensuring every sample reflects the right fit, finish, and design intent before bulk production.

SAMPLING FABRIC / ACCESSORIES

MATERIAL LIBRARY

An archive hosting thousands of fabrics, threads, wovens, laces, buttons, labels and trimmings sourced from global ethical vendors to support creative exploration and informed material choices.

INITIAL DEVELOPMENT

Converting creative concepts and tech-packs into physical garment prototypes, ensuring the perfect balance of fit, material selection and aesthetics before production initiation.

OUR FOCUS:

- Absolute fit and drape precision
- Optimal weave & thread matching
- Seamless designer alignment

ACCESSORIES STORE ROOM

STORAGE VAULT

Secure, organized and climate-controlled storage for trims, hardware and accessories ensuring longevity, quality and quick material traceability.

- 100% Secure Inventory Tracking
- Strict Dust & Humidity Shield
- Optimized Traceability System
